2x1 Digital Audio Switcher

Switch Between Two Digital Audio Sources and One Digital Audio Receiver or Amplifier

This simple to use Digital Audio Switcher allows you to connect two digital audio sources to a digital audio receiver or amplifier with one input, making it a worthy addition to home theater, hi-fi system with multiple audio sources.

Both digital audio sources remain live all the time and you can switch between the two at will. Access is controlled with the unit's IR remote control or the manual selection button on the front panel. Downtime is nonexistent—the switch occurs instantaneously.

How It Works

Simply connect both sources to the Digital Audio Switcher's inputs, then connect the Digital Audio Switcher output to the receiver's output. Apply power by connecting the power supply and you're ready to switch.

Features:

- Connects two digital audio sources to a receiver using one input
- Supports two formats: S/PDIF and optical
- Eliminates the need to unplug and replug devices
- Front panel switching
- Discrete IR remote (included)
- Parallel remote port (RMT-2 not included)
- Easy to operate: sources are selected remotely or manually

Specifications:

- Input/Output: S/PDIF (Digital Coax), Optical Toslink
- S/PDIF (Digital Coax): 96 kHz Performance
- Power Supply 5V DC
- Power Consumption: 5 watts (max)
- Dimensions: 4" W x 1.25" H x 3.25" D
- Shipping Weight: 2 lbs.

Package Includes:

- Digital Audio Extender
- RMT-2IR Remote Control
- 5VDC Power Supply
- Two TOSLINK fiber optic cables
- User Manual

INTRODUCTION

Congratulations on your purchase of the ex•tend•it 2x1 Digital Audio Switcher. Your complete satisfaction is very important to us.

Gefen's line of HDTV switches, extenders, and splitters are designed to make your A/V equipment use more comfortable, more productive and less expensive.

The 2x1 Digital Audio Switcher allows access to multiple Digital Audio devices, using a single Digital Audio receiver.

The ex•tend•it line offers solutions for noise, space and security concerns, data center control, information distribution, conference room presentation, school and corporate training environments.

Our Commitment

Gefen will always offer the finest quality product at the best possible price. Included in that price is a lifetime of support from a team of outstanding engineers.

The ex•tend•it 2x1 Digital Audio Switcher allows two SPDIF or OPTICAL devices to be switched easily in to one Digital Audio receiver. Simply connect your digital audio to the digital out.

Connecting and Operating the 2x1 Digital Audio Switcher

How to Connect the 2x1 Digital Audio Switcher to your devices

- 1** Connect the digital audio cables from your devices into the 2x1 Digital Audio Switcher inputs.
- 2** Connect your digital audio receiver to the 2x1 Digital Audio Switcher output.
- 3** Input 1 and 2 can either be S/PDIF or TOSlink, not both.
- 4** Regardless of the input type the output can be both S/PDIF and TOSlink.
- 5** Plug the 5VDC power supply into the 2x1 Digital Audio Switcher.

How to Operate the 2x1 Digital Audio Switcher

- 1** Use the front panel push button to switch between sources.
- 2** Alternatively, use the RMT2-IR remote control port to remotely toggle between sources.

RMT2-IR Installation

1. Remove battery cover from the back of the RMT2-IR remote.
2. Verify that dip switches 1 & 2 are in the down (OFF) position.
3. Insert the battery, hold the battery so that you can see the positive side facing up. The side that is not marked must be facing down.
4. Test the RMT2-IR remote by pressing ONLY one button at a time. The indicator light on the remote will flash once each time you press a button. **WARNING:** Do not press multiple buttons simultaneously and do NOT press buttons rapidly. These actions will cause the remote to reset and steps 1-4 will have to be repeated.

Note: The RMT2-IR ships with two batteries. One battery is required for operation, the second battery is complimentary.

The optional IR extender allows you to relocate your 2x1 HDMI Digital Audio Switcher and still have IR control of the 2x1 HDMI Digital Audio Switcher

IR Extender Instructions

How to Connect the IR Extender to the 2x1 Digital Audio Switcher

- 1 Open the unit so the circuit board below is accessible.
- 2 Add a jumper to close the contact between the pins in the white circle
- 3 Move the jumper in the black circle from the local to the remote pins
- 4 Plug the IR Extender into the remote jack on the front of the unit

WARRANTY

Gefen Inc. warrants the equipment it manufactures to be free from defects in material and workmanship.

If equipment fails because of such defects and Gefen Inc. is notified within two (2) year from the date of shipment, Gefen Inc. will, at its option, repair or replace the equipment, provided that the equipment has not been subjected to mechanical, electrical, or other abuse or modifications.

Equipment that fails under conditions other than those covered will be repaired at the current price of parts and labor in effect at the time of repair. Such repairs are warranted for ninety (90) days from the day of reshipment to the Buyer.

This warranty is in lieu of all other warranties expressed or implied, including without limitation, any implied warranty or merchantability or fitness for any particular purpose, all of which are expressly disclaimed.

1. Proof of sale may be required in order to claim warranty.
2. Customers outside the US are responsible for shipping charges to and from Gefen.
3. Copper cables are limited to a 30 day warranty and cable must be free from any scratches, markings, and neatly coiled.

The information in this manual has been carefully checked and is believed to be accurate. However, Gefen Inc. assumes no responsibility for any inaccuracies that may be contained in this manual. In no event will Gefen Inc., be liable for direct, indirect, special, incidental, or consequential damages resulting from any defect or omission in this manual, even if advised of the possibility of such damages. The technical information contained herein regarding 2x1 Digital Audio Switcher features and specifications is subject to change without notice.
