Model FCP22E (Plastic Housing)

General Specifications

| Standard Resistance Values | 1k, 2k, 5k, 10k (Ω) |
|--|-----------------------------------|
| Special Practical Resistance Values | 500, 20k, 50k, 100k (Ω) |
| Total Resistance | Standard Class $\pm 15\%$ (L) |
| Tolerance | Precision Class $\pm 10\%$ (K) |
| Independent Linearity | Standard Class $\pm 1.5\%$ |
| Tolerance | Precision Class $\pm 1.0\%$ |
| Resolution | Essentially infinite |
| Output Smoothness | Within 0.1% against input voltage |

Special Specifications Available

Extra tap (Available up to 1 tap)

(In case of the potentiometer with special specifications, the general specifications and environmental specifications may change. Please consult us in advance.)
 Shaft with front and rear extension (Rear shaft with 6mm dia. and 20mm length)

| | • * | ``` | ÷ / |
|---|-----------------|---|--|
| Multi-ganged (Available u | ip to 10 gangs) | With stopper (Rotating angle is 320° are stopped and the st | nd stopper strength is 0.6N • m [6kgf • cm]) |
| Special electrical travel | 🔵 Shaft dia. (| ϕ 6.35mm) & bushing with inch dimension | Special machining on the shaft |

1-TURN POTENTIOMETER

(Precision 1-turn, Wirewound & Conductive Plastic Element)

SAKAE 1-turn Potentiometers are fully continuous rotation potentiometers without stopper and are highly reliable in offering an excellent quality as well as a prolonged rotating life. There are 2 kinds of resistive element available in this series: Wirewound **(CP)** and Conductive Plastic **(FCP-A)** elements. You can easily make a best selection between these versions to your versatile application programs ranging from hand-operating use to servo applications. **CP** or **FCP-A** is respectively contained in an aluminum housing case processed by electrolytic corrosion-proof plating in silver color **(CP)** and black color **(FCP-A)** with performances and dimensions according to U.S. MIL, and V.R.C.I. Standards. They are light in weight and small in size as well as of rigid construction. Selection of any desired item is possible among a variety of standard models, of which diameters are variable between 12mm and 50mm.

SELECTION GUIDE

| Kind of Element | Diameter (mm) | Model No. | Features | | |
|--------------------|--------------------------|---|---|--|--|
| | ф 22 | CP22C, CP22E | Bushingmount type low-cost pot. with outer diameter of 22mm. | | |
| Wirewound | φ 22~ φ 50 | CP22, CP30, CP45, CP50 | Servomount type precision pots with outer diameter of 22mm to 50mm and excellent in temperature coefficient. | | |
| φ- | φ12,φ22 | FCP12AC, FCP22AC, FCP22E FCP22R | Bushingmount type low-cost pots with outer diameter of 12mm and 22mm. | | |
| Conductive | | FCPS22AC | Servomount type low-cost pot. with outer diameter of 22mm. | | |
| Plastic | φ 12~ φ 50 | FCP12A, FCP22A, FCP30A, FCP40A, FCP50A | Servomount type precision pots with outer diameter of 12mm to 50mm and wit patented multi-finger contact to make a good contact stability and excellent hig speed tracking ability. | | |

Note: 2. In case of the potentiometer with special resistance values and special specifications, the above performances may vary and therefore, please consult us in advance, separately. 3. As for operating temperature range, we can't always guarantee exactly the same performances and values in actual industrial applications even if the temperature out there is within standard range. (Please see page 23 in this catalog for further details.) 4. All values of each parameter were measured under standard temperature and standard testing conditions. For the values during the tests and other characteristics, please ask us senarately.

separately.5. In case of model LNB22, all values mentioned in the above table are reference only.
