

DDS90 - Black Gloss, DDS75 - Black Matte & Clear Gloss, DDS50 - Clear Matte

DDS Series: The "DDS Series" knob is our very popular "DD Series" with an attractive skirt extended on the bottom portion of the knob for easier viewing for the rotation from atop. Indicator "triangle" located on the skirt. Two 6-32 set screws.

Dials and Knobs

Precision Aluminum Instrumentation Knobs

Features: Precision aluminum machined surfaces from bar stock. Anodized finish in gloss or matte. Colors available are clear or black. JD, DD, DDS, HD Series knobs have two 6-32 set screws. ML Series knobs have a single 6-32 set screw. All KILQ knobs are available with 1/4" or 1/8" shaft holes.

Ordering Chart

It is simple to order KILQ knobs. For example, if you wanted to order the "DD Series" knob in the 0.750" size, in clear gloss, with a 0.125" shaft hole, you would order the part number: **DD-75-1-6**. (**DD** for the "DD Series", **75** for the 0.750" size, **1** for the color and finish and **6** for the 0.125" shaft hole.)

Knob Series	Model Size	Color, Finish	Shaft Hole Size
DD	50 (0.500")	1-Clear Gloss	5-0.250
DDS	75 (0.750")	2-Black Gloss	6-0.125
JD	90 (0.925")	3-Clear Matte	—
HD	—	4-Black Matte	—
ML	—	—	—

Concentric Scale Dials

Features: Anodized precision machined aluminum exterior. Accommodates potentiometer shaft — 1/4" (6.35 mm) with 3/8" x 32-NEF-2A bushing. Requires only one square inch of panel space.

400 Series: 1" (25.40 mm) **10 Turn Calibration.** This world class turns-counting dial is designed for multi-turn potentiometers up to ten turns or other rotary devices. The knob/scale attaches directly to the shaft, and the body of the dial is mounted rigidly to the panel, therefore, accurate readings with a ratio of 1,000 to 1 for 10 turns are provided with no backlash or reading error. Available with or without locking mechanism.

500 Series: 1" (25.40 mm) **One Turn Calibrated Scale.**

600 Series: 1" (25.40 mm) **Uncalibrated Dial.**

3400 Series: 7/8" (22.23 mm) **20 Turn Calibration.** Calibrated dial designed for multi-turn potentiometers up to 20 turns or other rotary devices. The turns counting digit appears in the window as the dial is rotated. Mounting bracket plate is installed between panel and panel nut, with the dial mounting directly to the potentiometer shaft.

Stock No.	Mfr.'s Type	Anodize	Lock	Turns	Dia. (In.)	Shaft (In.)
