

## PowerWalker VI 1000RT/LE

Line-Interactive UPS

1000VA Line-Interactive UPS

2-in-1 Rack/Tower Design

6 IEC Outlets, Dry out contacts, RJ45 surge protection

USB & RS-232 Connection for monitoring

Optional: MBS, ATS, Rack Rails

Item-No. 10121004

### **Product Features**

PowerWalker VI 1000RT/LE is a Line-Interactive UPS with pure sine wave output and designed for fulfilling high quality power protection demand. It offers a cost effective, rack mountable, full protection solution. Its dry-out contacts, integrated into the DB9 plug, are suitable for providing UPS status info to network/telephone communication systems as well as for industrial applications.

With its slim design it only requires 2U valuable space of your rack system. The UPS can be installed in 19" rack systems or used as tower.

- Pure sine wave output for smooth operation in battery mode
- Monitoring software included
- High Frequency design for efficient DC-AC operation
- 50/60 Hz frequency input (auto sensing)
- Auto restart while AC recovery
- Equipped with Boost and Buck AVR to stabilize output voltage
- Intelligent fan control for reduced noise level
- Self-Monitoring and Fault Diagnosis
  - Smart battery charger to extend battery life
- Easy, user replaceable, battery design
- Optional: Rack Rail, MBS, ATS

Backside: RS232 incl. dry-out, USB, 6x IEC outlets, RJ45 surge protection, Input Circuit Breaker

Backup time with SPS load 100% load  $\rightarrow$  4 min 80% load  $\rightarrow$  5.5 min 50% load  $\rightarrow$  11.0 min 100W load  $\rightarrow$  35 min

### **Technical Details**

#### **Product Features**

	-
Capacity	1000VA/600W
Input	
Voltage	230VAC
Input Voltage Range	162-290VAC (AVR Range)
Frequency Range	50/60Hz ± 5Hz% for normal mode, autosensing
Output	autosensing
Voltage	230VAC
Voltage Regulation Line Mode	± 10% of nominal voltage range
Voltage Regulation Battery Mode	± 5%
Frequency	50 or 60Hz
	depending on input frequency
Waveform	Pure Sine Wave
Overload Rating	
Line Mode	<110%, ± 8%; shutdown after 3min. <130%, ± 8%; shutdown after 200ms
Battery Mode	<110% ± 8%; shutdown after 30sec. <120% ± 8%; shutdown after 100ms
Transfer Time	
Transfer Time	2-7ms Typical, 10ms max;
	2-7ms Typical, 10ms max;
Typical	2-7ms Typical, 10ms max; 12V / 7Ah
Typical Battery	
Typical Battery Type	12V / 7Ah
Typical Battery Type Quantity	12V / 7Ah 2
Typical Battery Type Quantity Recharge Time	12V / 7Ah 2
Typical Battery Type Quantity Recharge Time LED	12V / 7Ah 2 6h to 90% after discharged UPS status, Load level, Battery level, Fault;
Typical Battery Type Quantity Recharge Time LED LED Indicators	12V / 7Ah 2 6h to 90% after discharged UPS status, Load level, Battery level, Fault;
Typical Battery Type Quantity Recharge Time LED LED Indicators Audio Indicators	12V / 7Ah 2 6h to 90% after discharged UPS status, Load level, Battery level, Fault;
Typical Battery Type Quantity Recharge Time LED LED Indicators Audio Indicators - Back up mode	12V / 7Ah 2 6h to 90% after discharged UPS status, Load level, Battery level, Fault; Sounding every 10 seconds
Typical Battery Type Quantity Recharge Time LED LED Indicators Audio Indicators - Back up mode - Battery Iow	12V / 7Ah 2 6h to 90% after discharged UPS status, Load level, Battery level, Fault; Sounding every 10 seconds Sounding every 1 second
Typical Battery Type Quantity Recharge Time LED LED Indicators Audio Indicators - Back up mode - Battery Iow - Overload	12V / 7Ah 2 6h to 90% after discharged UPS status, Load level, Battery level, Fault; Sounding every 10 seconds Sounding every 1 second Sounding every 0.5 seconds
Typical Battery Type Quantity Recharge Time LED LED Indicators - Back up mode - Battery low - Overload - Over charge	12V / 7Ah 2 6h to 90% after discharged UPS status, Load level, Battery level, Fault; Sounding every 10 seconds Sounding every 1 second Sounding every 0.5 seconds Sounding every 1.5 seconds
Typical Battery Type Quantity Recharge Time LED LED Indicators Audio Indicators - Back up mode - Battery low - Overload - Over charge - Over temperature	12V / 7Ah 2 6h to 90% after discharged UPS status, Load level, Battery level, Fault; Sounding every 10 seconds Sounding every 1 second Sounding every 0.5 seconds Sounding every 1.5 seconds Sounding every 2.5 seconds
Typical Battery Type Quantity Recharge Time LED LED Indicators - Back up mode - Battery low - Overload - Over charge - Over temperature - Battery replace	12V / 7Ah 2 6h to 90% after discharged UPS status, Load level, Battery level, Fault; Sounding every 10 seconds Sounding every 1 second Sounding every 0.5 seconds Sounding every 1.5 seconds Sounding every 2.5 seconds Sounding every 3 seconds
